

# *Instructions for WebRTC*

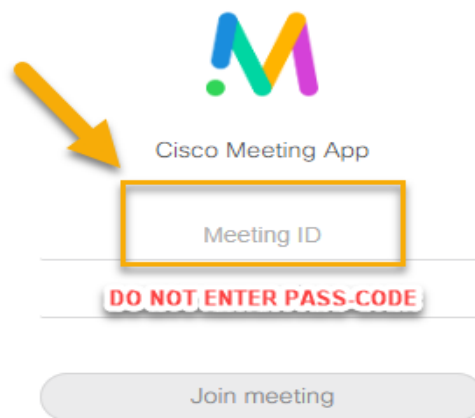

WebRTC enables Real Time Communications in the browser much like ZOOM or SKYPE. To use it for EE 2240 follow the steps described below.

**Step 1:** Open your web browser and go to: <https://join.ets.isu.edu/>.

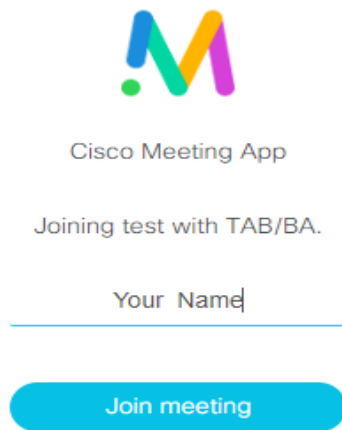

**Step 2:** Click “Join meeting”. (Do not click “Sign in”.)

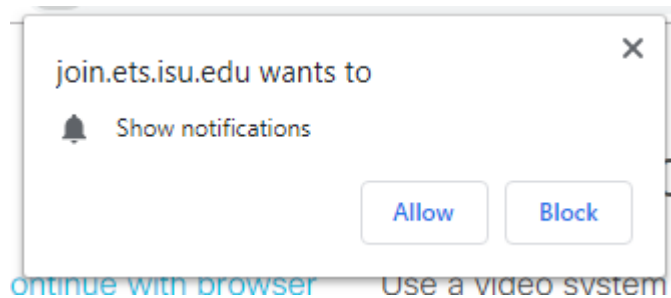

**Step 3:** Next you will see a screen where you can enter the Meeting ID. For EE 2240 this is the five-digit code **31243**. This meeting ID ensures that you join the correct class. **DO NOT ENTER A PASSCODE.** Then click “Join meeting”.

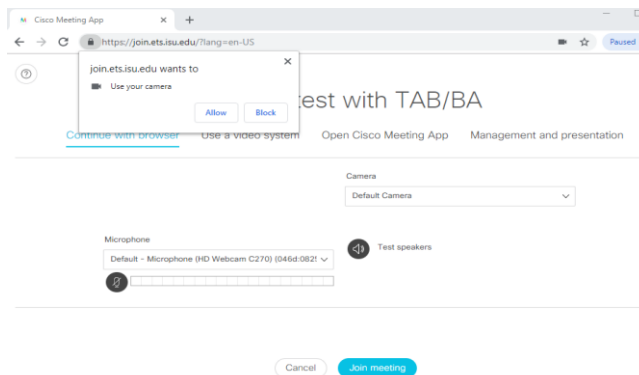

**Step 4:** Enter your name. This allows the instructor to see who has connected.

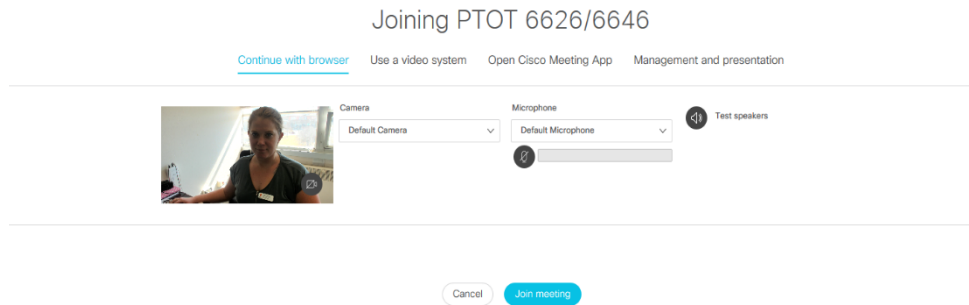

**Step 5:** If prompted, click “Allow” on the notifications popup.

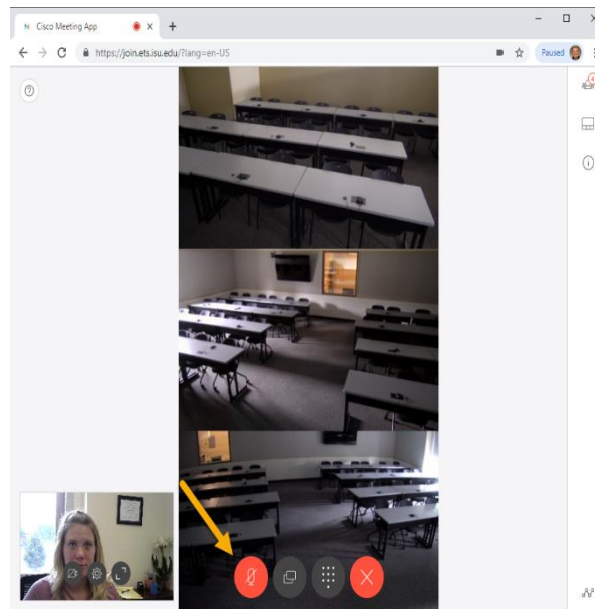

**Step 6:** Confirm the correct microphone is selected and audio is registering on the sound meter.

**Step 7:** Click “Test Speakers” to make sure you can hear audio.

**Step 8:** Click “Join Meeting”. Once you are in, you will see a live stream of the classroom. Note that the microphone pictured below is **red**. This means your microphone is muted. Please make sure your microphone is muted upon entry of the classroom and during the duration of class unless you are speaking.

**Note:**

***You will not be able to connect to your class/meeting until five minutes before the scheduled start time.***

***Please mute your microphone when you join the video conference.***
